that when the previous more ignificant to be
an witness to the state of the state
that when the such as the state of the state referred to this committee, and under it they had the right to examise witnesses, and it was the duty of the relitances to answer any question failing within the object and purpose of the resolution. The two questions asked Webette, had reference to his nativity, and the witness McCann was asked of what country he was a native. These questions were irrelevant. The committee were directed to inquire or investigate as to any frauds or corruptions in any branch of the Police Department, and the manner in which it hat been conducted, and they were confined to that subject, and could not enter upon any other. Whether an inquiry as to the nativity of the persons composing the Police Department would or would not be an appropriate subject of inquiry on the part of the Common Council, it is not necessary to determine. It is sufficient that it was not emeraced in the resolution referred to the committee. But this witness refused to answer any other question the committee might ask him—a refusal entirely unwarrantable, and which renders him liable to be proceeded against as for a contempt. The witness McLann was asked his name, how long he had been upon the police, and what ward he was attached to, all of which questions he should have answered. He was also asked whether he had ever been in prison in this or in any other country. How much might be comprehended under this question, or or what facts the inquiry started by it might elicit, it is impossible to judge of upon the more statement of the question, and I therefore think that it should have been answered. If it had led to proof that the witness had been convicted, in this or in any other country, of an infamous crime, though that circumstance would not disquality him under the act of 1853 from serving as a policeman, the propriety of appointing such persons might very well be taken into considerations by the Common Councie, with the view of procaring modifications answered. If it had led to proof that the witness had been convicted, in thus or in any other country, of an infamous crime, though that electumatance would not disqually him under the act of 1953 from serving as a policeman, the propriety of appointing such persons might very well be taken into consideration by the Common Council, with the vior of procuring modifications or charges in the existing law. This witness also refused to arriver any question the committee might put to him, and thereby placed himself in the responsent, Mackellar, was asked six questions, all of winch should have been answered. They related first, to his position and the nature of his duties in the Police Department, the salary he received, an other has office he held or what salary he received, as both facts could be ascertaired at ones by references to the Corporation Manual; but the nature of his duties and whether he received any compensation over and above his salary in the nature of his duties and whether he received any compensation above his salary were material question. Mr. Mackellar is the clerk of the Unite of Pelice his duties are not defined by the police law, other than that he is required to perform all such duties as the Chief of Police shall direct; his salary is fixed by the Board of Supervisors, and his appointment is made with the approval of the Board of Aldermen. In his case, therefore, those longuries were certainly relevant. The nature of his duties, and whether he received is virtue of his position any compensation beyond his salary, were matter is respect to which it was examplent, for the committee in squire, under at least that part of the resolution directing them to langure as to the manner in which the Solo Populariant was a subject capedally within the province of the Common Guandi. They had passed an ordinance requiring the musting of dogs while acroad in the public arcrete. In the money his hands so the manner in which the dog pound and extended in the protect of the chief of Police some time previous

tien. He further sets forth as affording countenance to the objection he made, that one of the three meathers comprising the committee descented from all its acts and proceedings, and was not present when the questions referred to were presonneed to the witness. Much has been said in the efecution of the case about the merits of this investigation—the manner in which it has been conducted, and of the metives which led to it. But the only point that arises on this application it, whether the Board of Alderman had the right, and whether the resolution referred to them. I am of opinion that the Board or the committee were compotent, under the resolution referred to them. I am of opinion that the Board or the committee were compotent, under the Board or the committee have used the discretion committed to them is not a matter to be enquired into or reviewed here. The right of the committee being now determined, it is presumed that those witnesses will submit themselves for examination. An order, therefore, will simply be made that they appear at turn next meeting of the committee and be exam and touching any matters embraced by the resolution of the 15th of March, 1856, upon receiving notice from the charman of the committee of the time of its mat sitting; when, should they fail to attend, or attending request to testify, an attachment will be granted for that refusal and for refrusing to answer the questions already propounced to them, and which have been determined to be proper.

FINANCIAL AND COMMERCIAL. MOSET MARKET.

MONDAY, June 18 -6 P. M.
The tendency of prices at the first board to-day was upward. With considerable activity in all the seding stocks, an advance was realized in nearly every instance. Large lots of Beading were put on the market at prices current on Saturday. Illinois Central bonds improved 4 per cert; Erie bonds, 1875, 5; New York Central Railroad, 4; Erie Railroad, 4; Harlem, 5; Michigan Southern Railroad, 4; Hadson Railroad, 1; Cleveland and Pittsburg, 4; Galena and Colcago Railroad, 5. Indiana 5's fell off 4 per cent; California 7's, 4. New York Central and Erie Railroad stacky were more active to day and re-Railroad stocks were more active to day, and re covered all the depreciation caused by the reported rupture in running arrangements. Hudson Railroad stock took a start to-day, and sold freely at the advance. Western railroad stocks appear to have about reached their maximum. The improvement in some of them has been very great, and a further inflation would not be justified by their position or prospects. Railroad bonds, particularly Illuois Central, sold to some extent to-day at batter prices. The Construction bonds, amounting to \$125,000, were sold at the first board. State stocks were not in much demand, and few were offered. The sales made were at lower prices.

At the second board the market was active, and

high prices ruled. Illinois Central bonds atvanced per cent; Erie bonds, 1875, 4; Cumberland Coal, the per cent; Erie bonds, 1875, 4; Cumberiand Coal, 4; New York Central Railroad, 4; Erie Railroad, 4; Harlem, 4; Hudson River Railroad, 4; Cleveland and Toledo Railroad, 4; Michigan Southern Railroad, 4. Reading Railroad sold to the extent of seventeen hundred shares, at a decline from the opening. Something has evidently occurred unknown to the public generally in relation to this stock, which is the cause of this depression. We know that some of the largest holders have lately been seiling out—those whose position gives them opportunities of knowing not only what is going on, but what is in contemplation. A few days will dispess of all doubts, as the books close on the lat of July. The steamer from Boston for Liverpool, on Wed-

needay, will not take out a large amount of gold. The aggregate will not exceed half a million of dollars. There was a better supply of foreign ex. change in the market to day, and rates rather favored buyers. We quote on London, 9% a 10% per cent premium; on Paris 5f. 15 a 5f. 131.

The June number of the Bankers' Magazine and Statistical Register is filled with valuable and in-te-esting matter. The index to the ninth volume should be in the hands of all old subscribers. The next number commences a new series. To bankers,

rienced in getting information of the kind contained in this work, in a condensed form, commends this magazine to all active practical financiers.

The transactions at the Assistant Treasurer's office to-day, were as follows:

Paid on Treasury account.

\$198,665 04

Received do \$119.201 00

Balance do \$231,835 60

Paid for Assay office \$52,23 45

Paid on Dusbursing checks \$29,973 54

The warrants entered at the Treasury Department, Washington, on the 15th inst., were as follows: ment, Washington, on the 16th inst., were as 101lows:—
For the Treasury Department. \$61,627 38
For the Interfor Department. \$2,948 04
For the Interfor Department. \$2,948 04
For the Customs. \$21,179 39
War warrants received and entered. 142,188 59
War repsy warrants received and entered. 10,439 39
On account of the Navy. 163,404 60
Albert H. Nicolay will sell, to-morrow, Taesday, at 12 o'clock, at the Merohant' Exchange, by order of the Trustees of the Gold Hill Mining Company, thirty thousand shares of the stock of that company, which has been forfeited, and will be sold without reserve.

which has been fortested, and wall to reserve.

Sineon Drsper's regular semi-weekly sale of bonds and stocks will take place to morrow, at the Merci ants' Exchange, at balf past twelve o'clock. Among the securities to be offered are seventeen thousand dollars of the bonds of the Lake Erie, Wabash and St. Louis Railroad Company.

The annexed statement exhi. Its the average daily movement of the leading departments of the banks of this city, during the week preceding Saturday morning, June 16, 1855:—

The last returns, compared with these for the week The increase in discounts is an intimation of a

more active demand for money from the mercantile classes. The variations in specie and circulation do not amount to much. That in specie shows the extent of supplies from internal sources. With such an active experiation, the banks would show a great reduction in their specie department but for the receipts from the interior. We looked for a the receipts from the interior. We looked for a much greater decrease during the past week, and are therefore agreeably disappointed. Before an-other large shipment is made from this port, further remittances from California will be at hand. Our estimate for the next arrival is one and a half mil-lion of dollars on freight, independent of gold in the bands of passengers and government drafts. With-in the past two weeks the banks have increased their discount line received. their discount line nearly two millions of dollars, and from this time out the weekly returns will, without doubt, show a steady increase in loans.

In a case recertly tried before Jadge Fitch, in the Court of Common Pleas at Sandusky, Ohio, John Hajs, an engineer on the Mansfield, Sandusky and Newark Ratical, sued the company for wages amounting to \$132 25. On the part of the company it was orged that on the 30th of August, 1854, while tuening his train contrary to the printed rules of the road, he had run the cogine and train into a mail and passenger train, by which the company sustained a loss of \$11,000. The defendants, in correquence of the act, asked that so much of the sum as might be necessary to satisfy the plain iff's ciaim of \$132 25 be set off against the same, and teat they have judgment for any balance that might be found to be due. The Court upon trial, and after hearing the evidence, rendered judgment against

the plaintiff for \$5,150.

ASSES.—About 50 bbls. were sold at old prices.

BREADSTUJES—Flour—The market was dail, and tenced to lower prices. Grades of State and Westers, below extra, declined 12/c per bbl. The sales embraced about 8,000 a 2,000 bbls., including common to choice brands, at \$5.75 a \$9.25/da. extra do., \$9.37; Western do. do., \$9.37; Western do. do., \$9.37/da. \$10.20 bbls., at \$10.75 a \$11/25 for common. \$11.37 a \$12 for fancy and extra; 1,000 bbls, sold for delivery in July, at \$7.5. Rye flour was quist. Corn meal was without change, and ro raises of mement were reported. Wheat—Sales of 1,200 bushels choice Canada white at \$2.50, and 700 do. Michigan white at \$2.45 a \$2.48. Corn—The market was active, and prices well sustained considering the amount of receipts. The sales reached about 110,000 a 120,000 bushels Western mixed, which closed at 98 a \$1.01 Included in the sales were about 50,000 bushels taken for the East, with some purcels for export; 1,500 bushels Southern sold at \$1.20; yellow Southern sold at 104% a 105c. Rye—700 bushels sold at 76c. a

1,500 bushels Southern sold at \$1 20; yellow Southern sold at 104½c. a 105c. Rye—700 bushels sold at 76c. a 77c. Oats—Dull.

COPER.—The market was steady, though sales of Rio were limited. A sale of 1,200 bags Porto Rioo was reported, (thouh we sid not trace it,) at 11c; 200 bags and 500 mats Java sold at 14½c. a 14½c., and 75 bags Laguayra, at 11c.

COPTON.—The sales embraced about 3,500 bales, at a feechae of ½ ceat per 1b, which was about equal to the advance on the Atlantic's news.

FRIGHTS—Rates to Laverpool were firmer. About 30,000 bashels corn, in ship's bags, were engaged at 5d. a 5½d., and 1,500 a 2,000 bales cottom, at ½d. a 3-15d. There was nothing of moment deing for the Continent. To California, measurement goods were taken at 36c. per foot.

HAY.—400 a 500 bales were sold at \$1 a \$1 06.

foot.

HAY.— 400 a 500 bales were sold at \$1 a \$1 06.

Hibrs were in fair demand, but with increased arrivals during the past week and some augmentation in stock, prices favored purchasers.

IRON.—About 100 tons Spotch pig sold at \$30, 6 months, which was an advance. which was an advance.

LEATHER.—Hemlock sole was easier, and during the past week holders submitted to a decline of Mc. a loper lb. There was no change to notice in oak tanned. The receipts during the week slightly increased the stock.

The receipts during the week slightly increased the stock.
